[illegible]

[illegible]

Please describe briefly how you worked on this task. Plain notes are fine — no polished write-up, no methodology terminology. What matters is that someone reading this can follow your reasoning. A few sentences per question is enough.

Question

Answer

Which sources did you use? If you used any tools, tell us what and how.

Did you have to make assumptions where you couldn't find a definitive answer? If yes — what would you have asked us if you could have?

What would you do next if you had another day on this?
